

# BUILD THE FUTURE

Reimagine Aging in America with 

Oasis Friend  
123 Clayton Drive  
St. Louis, MO 63105

Dear Oasis Friend,

You are a valued and appreciated part of our community, whether you are a volunteer, a participant in our many program offerings, or an instructor for our classes. The time you share and invest with Oasis builds a better future for you and the Oasis community. Thank you!

As we live longer, society needs a new approach to aging. What does it mean to **reimagine aging**? As leaders of Oasis, it means drawing on the power of our community (that is YOU!) to build a future where ALL older adults can live expansive and purposeful lives. At Oasis, and with your help, we are working hard to build a future so that we are ready for the long lives ahead of us. As our organization matures, just like our audience, we are reimagining Oasis. **We need your support** to make a greater impact:

- Intergenerational Tutoring for At-Risk K-3 readers. With your help Oasis will recruit 10,000 older adult tutors over the next ten years in all 50 states to help struggling students become stronger readers, and help older adults find **purpose and connection**.
- Workforce Development through Technology Literacy. Your support will help launch a new online learning platform to **reskill** older adults for new careers or brush up on existing skills for the workplace.
- Free classes in communities of need, including wide-ranging health and wellness and lifelong learning programs. Your support will keep our communities **healthy, strong and connected**.

Thank you for being part of Oasis. Can we count on you? Please make a donation to help us provide health wellness, civic engagement, and lifelong learning opportunities to all older adults in our community. Your support is crucial to our success.

Sincerely,

Paul Weiss  
St. Louis Oasis | 50 Gay Avenue, Clayton, MO 63105

P.S. YOU can provide the support we need to change, grow, and reimagine aging for older generations in St. Louis. Please make your gift to Oasis today and help us **build the future**.

**Yes!** I want to build a better future with Oasis.
